Calima Vitae - Plants with Purpose ✦

Calima is a golden mist that forms when the wind lifts fine sand from the Sahara and carries it across the ocean, bringing minerals that enrich the soil, nourish the water, and give life to distant lands.

The word Vitae means life in Latin. Together, Calima Vitae symbolizes the beauty that emerges from what seems chaotic, reminding us that even invisible processes can nurture growth and harmony.

Our essence ✦

Our essence born from a deep love for plants, Calima Vitae believes that each sprout holds the power to transform our energy.

We offer intentionally cared for plants that accompany you in moments of calm, connection, and growth.

Each one is cultivated with respect and love.

Our philosophy ✦

We see plants not just as decoration, but as silent teachers that purify, balance, and ground us.

Through them, we learn patience, presence, and resilience.

Our purpose is to inspire you to create living spaces filled with serenity, meaning, and a daily touch of green hope.

"Caring for a plant is also an act of self-love."
